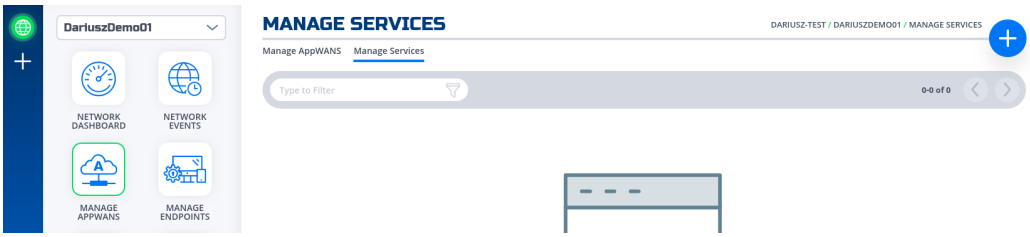
Create ip network service

Create IP Network Service

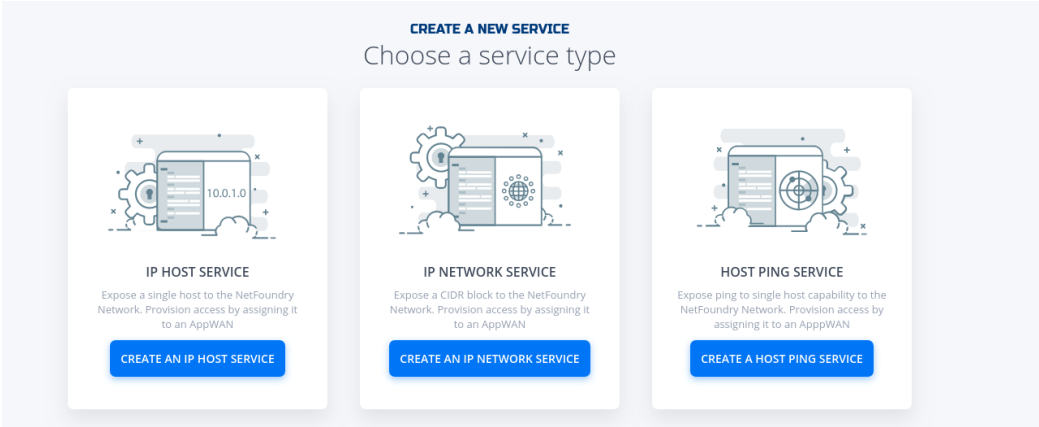
This section will guide a user through the steps on how to create a NF Service.

Console UI

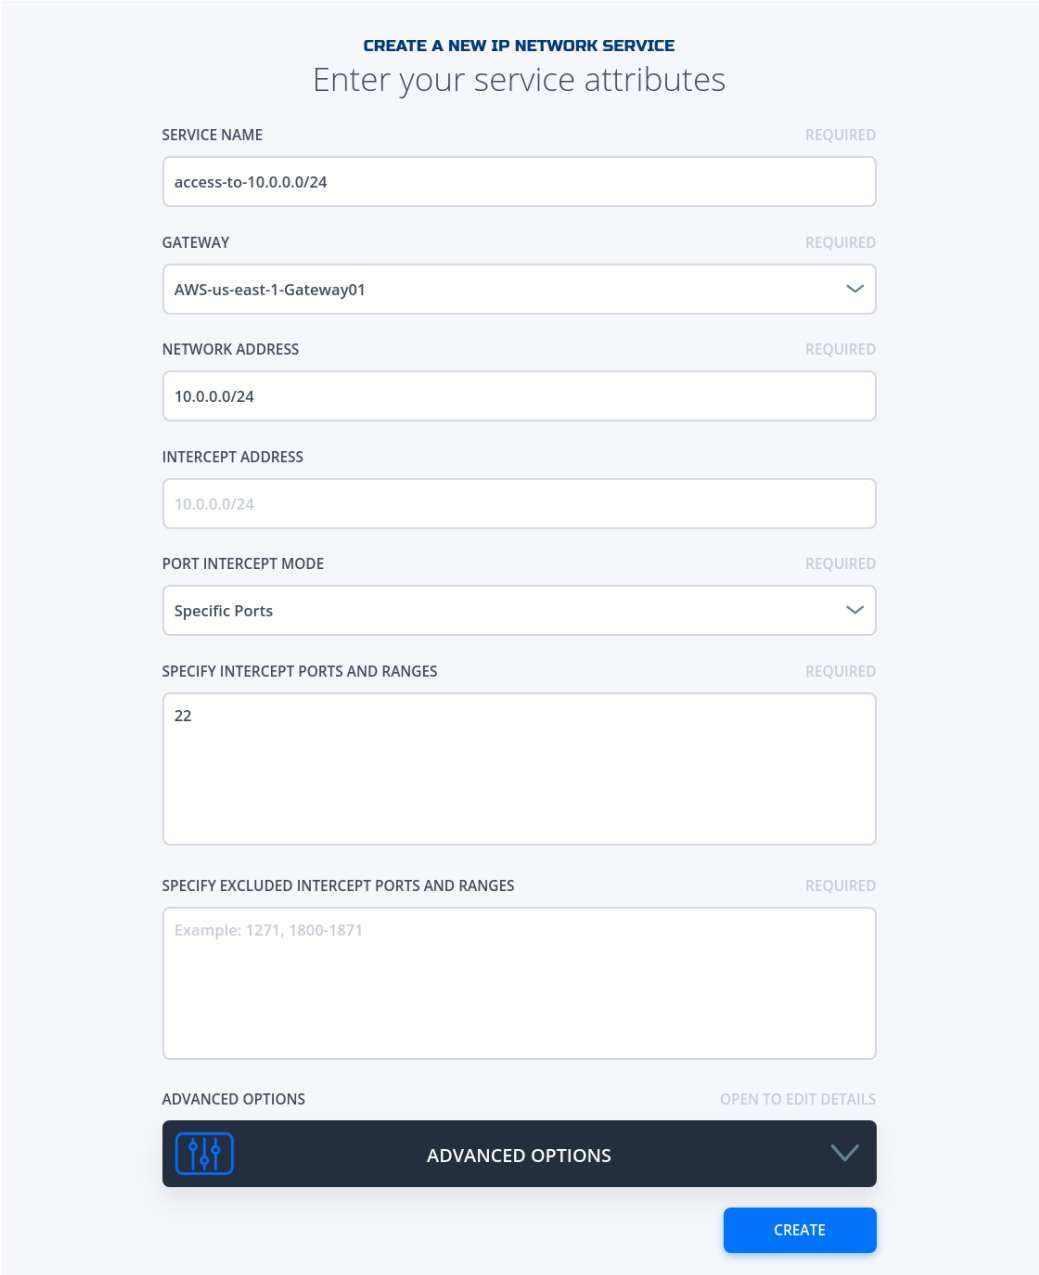
1. Navigate to Manage Services Page under Manage Appwans
2. Click on + sign in the top right corner.



3. Click on "Create an IP Network Service"

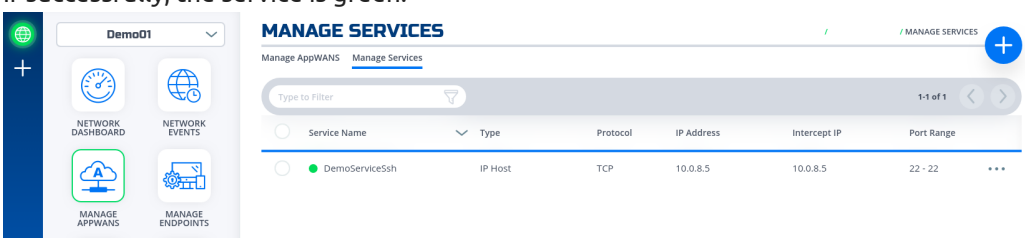


4. Fill in the required information for the Network your wanting to access.



> **Important**
>
> Please make sure the service you want to access is behind the gateway you specify here.

5. If successfully, the service is green.



6. Done
