

Create azure gateway

Create and Deploy NF Azure Gateway

This section will guide a user through the steps on how to create a NF Manage Gateway in the NF Console UI and install it in the Azure vNet.

Console UI

1. Navigate to Manage Gateways Page
2. Click on + sign in the top right corner.

3. Click on "Create Gateway" on the Azure Cloud Gateway Card

4. Fill in the required information and click on "Create"

5. Copy the Client Registration Key

6. Click on "Deploy to Microsoft Azure". It will take you to the Azure Portal and ask you for your login credentials.

7. You will be presented with the template that needs to be filled. The first section is the Basics regarding your Subscription and Resource Group this gateway will be deployed in.

BASICS

Subscription *	<div>Your Subscription Name</div>
Resource group *	<div><div>Your Resource Group Name</div><div>Create new</div></div>
Location *	<div>(US) East US</div>

8. The second section related to resources associated with this gateway. e.g. vm name, ip address space, security groups, etc. you will paste the registration key copied in step 5. You will also need the public ssh key to use for access to this gateway remotely.

SETTINGS

Location	<div>Your Region</div>
Network Interface Name	<div>azuredemo01-if</div>
Security Group Name	<div>azuredemo01-sg</div>
Virtual Network Name	<div>azuredemo01-vnet</div>
Address Prefix	<div>10.0.8.0/24</div>
Subnet Name	<div>default</div>
Subnet Prefix	<div>10.0.8.0/24</div>
Public Ip Address Name	<div>azuredemo01-ip</div>
Public Ip Address Type	<div>Dynamic</div>
Public Ip Address Sku	<div>Basic</div>
Virtual Machine Name	<div>azuredemo01</div>
Virtual Machine RG	<div>nf-sandbox</div>
Os Disk Type	<div>Premium_LRS</div>
Virtual Machine Size	<div>Standard_B1ms</div>
Nfreg Key * ⓘ	<div>.....</div>
Admin Username ⓘ	<div>nfadmin</div>
Ssh Key Data * ⓘ	<div>ssh-rsa AAAAB3NzaC1yc2EAAAADAQABAAQJga67wcoISXaD1bswknLrejRYtZ...</div>

9. You will need to agree to Azure Marketplace Terms and Conditions and click to "Purchase" to continue.

TERMS AND CONDITIONS

[Azure Marketplace Terms](#) | [Azure Marketplace](#)

By clicking "Purchase," I (a) agree to the applicable legal terms associated with the offering; (b) authorize Microsoft to charge or bill my current payment method for the fees associated the offering(s), including applicable taxes, with the same billing frequency as my Azure subscription, until I discontinue use of the offering(s); and (c) agree that, if the deployment involves 3rd party offerings, Microsoft may share my contact information and other details of such deployment with the publisher of that offering.

☒ I agree to the terms and conditions stated above

Purchase

10. If the NF Gateway was deployed successfully. Here is the view of the Resource Group and NF Console UI.

The screenshot displays the Azure portal interface. The top section shows the 'nf-sandbox' resource group overview, including subscription details and a list of resources: azuredemo01-if (Network interface), azuredemo01-ip (Public IP address), azuredemo01-rg (Network security group), and azuredemo01-vnet (Virtual network). The bottom section shows the 'MANAGE GATEWAYS' console for 'DariuszDemo01', displaying a table with one gateway: 'AzureDemo01' (Online, Azure Private Gateway, Your Region).

Gateway Label	Status	Type	Location	Cloud Provider
AzureDemo01	Online	Azure Private Gateway	Your Region
