

Create appwan gateway

Create AppWan

This section will guide a user through the steps on how to enable service connectivity to users by creating an appwan.

1. Navigate to Manage AppWANS Page under Manage Appwans
2. Click on + sign in the top right corner.

3. Click on "Component Builder Appwan"

4. Move the desired gateway (e.g. DemoGateway01) from "Available" Gateways to "Selected" Endpoints. Move the desired service (e.g. DemoServiceSsh) from "Available" to

"Selected" Services.

CREATE A NEW APPWAN

Choose from existing components, or add new ones
